

**Career coaching, workshops and networking with companies, that embrace Diversity and Inclusion: Take part in the myAbility Talent<sup>®</sup> Program in Switzerland to kick start your career!**

**The myAbility Talent<sup>®</sup> Program is our accessible career program for students, doctoral candidates, and people with a higher vocational education or an advanced, acknowledged federal training.** For almost half a year, you will benefit from extensive coaching, workshops and various opportunities to network with representatives from different companies. They would like to get to know qualified people that live with a disability or chronic condition, and they are all keen to establish a barrier-free working environment. In this way, you commonly create a conscious and open-minded approach to accessibility and fair chances on the labour market, and job-relevant exchange.

**The program in Switzerland comprises four elements:**

- 1. Individual career counselling and exchange with other participants:**  
With some practical exercises and inputs, you compile your career vision, and how you unfold your strengths in a working environment. You develop your strategy to professionally deal with your individual requirements. Also, you optimise your CV in a 1-on-1-session. All those components take place DIGITALLY, either within a group, or individually with our Talent Managers.
- 2. Presentation and communication training:**  
A DIGITAL and individual training to exercise your convincing and powerful appearance during your job interviews.
- 3. "Speed dating" with participating companies:**  
You meet various company representatives, mainly HR-experts, PERSONALLY. You get to know each other and you can present yourself, applying the skills you learned. Potential job shadowings or other ways of further becoming acquainted with companies, their employees and their culture are possible, based on individual invitation from the participating companies.
- 4. Networking event:**  
Together with all talents and company representatives, we celebrate the completion of the program. Another outspoken networking opportunity!

**You are interested? Please apply early and secure your spot:**

The number of spaces available is limited, so timely application is recommended. Expect 10 hours of time-investment per month, which can be easily combined with other activities. **Participation is free of charge**, we expect you to travel to interviews and networking events. **Apply until March 10<sup>th</sup>, 2024, lately, using our URL <https://karriere.myability.jobs/myabilitytalent/schweiz>**
